Create account in coca

The screenshot shows the COCA account page. The top navigation bar includes 'SEARCH', 'FREQUENCY', 'CONTEXT', and 'ACCOUNT'. The 'ACCOUNT' tab is active. Below the navigation bar, there is a 'Problems with access?' link. The main content area displays personal information for 'SANTHOSH BJS' (santhu70321@gmail.com) with a '(log out)' link. The 'Country' is set to 'INDIA' with an 'Update' button. The 'Institution' is 'VIT University (Vellore, INDIA)' with a '(change)' link. The 'Status / license' section shows 'No academic license' and 'No premium license'. The 'Level (1-3) : Category' is '1 / 3 : Student' with a '(more information)' link.

## Frequency count

The screenshot shows the COCA Frequency count page. The top navigation bar includes 'SEARCH', 'FREQUENCY', 'CONTEXT', and 'OVERVIEW'. The 'FREQUENCY' tab is active. Below the navigation bar, there is a 'ON CLICK:' section with links for 'CONTEXT', 'TRANSLATE', 'ENTIRE PAGE', 'GOOGLE', 'IMAGE', 'PRON/VIDEO', and 'BOOK'. The main content area displays a table with columns for 'HELP', 'FREQ', and 'WORDS (M)'. The table shows the frequency count for 'BILL CLINTON' as 21197. The 'WORDS (M)' column shows a value of 993. The 'PER MIL' column shows a value of 21.35. The 'SEE ALL SUB-SECTIONS AT ONCE' link is also present.

## Chart-word-frequency;section;sub-section;year

The screenshot shows the COCA Chart page. The top navigation bar includes 'SEARCH', 'CHART', 'CONTEXT', and 'OVERVIEW'. The 'CHART' tab is active. Below the navigation bar, there is a 'CLICK TO SEE CONTEXT' link. The main content area displays a table with columns for 'SECTION', 'ALL', 'BLOG', 'WEB', 'TV/M', 'SPOK', 'FIC', 'MAG', 'NEWS', 'ACAD', and years from 1990-94 to 2015-19. The table shows the frequency count for 'BILL CLINTON' across different sections and years. The 'FREQUENCY' column shows a value of 21197. The 'WORDS (M)' column shows a value of 993. The 'PER MIL' column shows a value of 21.35. The 'SEE ALL SUB-SECTIONS AT ONCE' link is also present.

COLLOCATES display

To find collocates in COCA, you would normally input a word via [Word](#), and then select Collocates on the next page. In COCA, the collocates display (via [Word](#)) is much better than with the other corpora from [English-Corpora.org](#), such as automatically grouping collocates by part of speech. Some examples: [bread](#), [kiss \(v\)](#), [rough](#), or [naturally](#).

The only time that you'd want to use the form to the left is when you want to find collocates for a string of words (e.g. [put away](#) or [fire station](#)), or when you absolutely need to limit the number of words left or right.

Note however that using the form to the left for individual words (especially high frequency words) will be *much* slower, and in many cases the search will "time out", resulting in an error. In nearly all cases, it is much better to search for collocates via [Word](#).

See what words occur near other words, which provides great insight into meaning and usage. For example, nouns after [thick](#) or [look into](#), verbs before [money](#), or any word near [crack](#), [believe](#), [loud](#), or [quickly](#).

More information: [compare to LIST display](#), [types of collocates](#), [direction and distance of collocates](#), [variable length queries](#).

		TOTAL		458084			

The personality taken is Bill Clinton. The total frequency he has occurred is 21197 out of which 12480 were from spoken section and from 1990-94 he was most famous with frequency 5808. This hypothesis is right because he became president of United states in the year 1993 so he came into trend in between years 1990-94.
